SUBJECT: INTERVIEW OF [REDACTED]
DOB [REDACTED] 78
500 BROADWAY STREET, [REDACTED]
MALDEN, MA
CELLULAR TELEPHONE # [REDACTED]

1. On Friday, March 23rd, 2012, I was involved in an investigation concerning an armed bank robbery and subsequent police shooting in the City of Malden. During the course of the investigation it was learned an individual identified as [REDACTED] had information concerning the shooting. As a result, I contacted [REDACTED], who agreed to meet with me. The following is a summary of the conversation I had with [REDACTED]. The discussion took place in [REDACTED]'s apartment located at the above listed address. Detective Ted Meroski of the Malden Police Department was also present for the interview.

2. [REDACTED] began conversation explaining he was home in his apartment all afternoon. At approximately 4:55pm, he heard a commotion in the parking lot. He described the commotion as a loud tire screech and a bang, like a car cash. [REDACTED] states he looked out his bedroom window and saw three guys wearing black come out from a red car, parked under his window. He saw a guy on the street waving to several police cars as they drove past the complex. At this point [REDACTED] explains he grabbed his cellular telephone and began to tape the events in the parking lot. As the commotion downstairs continued, he observed the three men start to run to the Broadway Street side of the building. He then heard several gun shots. [REDACTED] states he then moved to his living room and again started to film, looking out his fifth floor window. [REDACTED] explains it was hard for him to watch everything and tape on his phone at the same time. As a result his specific observations were from reviewing the recording after the shooting had occurred.

3. After reviewing the phone recording, I asked [REDACTED] if he would allow us to burn the video onto a disk. He complied. (On file) I then directed [REDACTED] to erase any memory of the video in his computer . He again complied, but explained he had already placed the video on Facebook. [REDACTED] also gave me permission to take his cell phone for analysis. The phone is identified as a black, T mobile, Samsung Droid.

Respectfully Submitted,
