## CRIME SCENE REPORT 1

**Laboratory Case Number:** 16-10318

**Victim:** Mario Mejia-Martinez

**Suspect:** Unknown

**Report To:** Trooper Michael J. Cashman, MSP Middlesex County Detective Unit

**Report Cc:** Lisa Ortiz-Murray, Middlesex County District Attorney's Office

**Report Date:** May 11, 2016

**Incident Number:** 2016-110-0233

**Town:** Everett

On April 21, 2016, Sergeant Peter Sennott of the Massachusetts State Police Middlesex County Detective Unit requested technical assistance in connection with the above subject. I, Forensic Scientist Timothy E. Woods, responded, reporting to the intersection of Broadway, Chelsea Street and Norwood Street at approximately 1940 hours where I met with the following personnel, among others:

Detective Lieutenant Thomas Sullivan (Massachusetts State Police Middlesex County Detective Unit)  
Trooper Robert Quigley (Massachusetts State Police Crime Scene Services Section)

The intersection of Broadway, Chelsea Street and Norwood Street was a four-way intersection located in an urban area. Broadway ran southwest to northeast through the intersection, while Chelsea Street and Norwood Street approached the intersection from the southeast and northwest respectively. Businesses were noted on each corner of the intersection, with Cancun Bar and Restaurante at the north corner, Everett Square Convenience at the east corner, Global Dental at the south corner and a small park and Tres Lounge at the west corner. Upon arrival, I was directed to the northwest sector of the intersection to an area on Broadway adjacent to the intersection with Norwood Street. Red-brown stains with Emergency Medical Technician (EMT) debris (A) were noted on the ground. Directly to the north of this, additional red-brown stains (B) were noted on the ground.

A screening test for the presence of blood was positive on the following:

- Red-brown stains with EMT debris on ground – A
- Red-brown stains on ground – B

### COMMENTS

The following items were collected from the scene and transported to the Crime Laboratory:

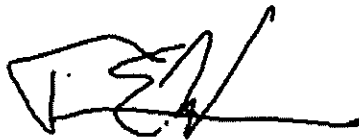

- 2-1 2 swabs of red-brown stains on ground - Broadway at Chelsea Street/Norwood Street - A
- 2-2 2 swabs of red-brown stains on ground - Broadway at Chelsea Street/Norwood Street - B

Bloodstain Pattern Analysis is available upon request

**Further analysis upon request.**

**Please direct all requests to: Case Management Unit (978) 451-3440.**

This report reflects the test results, conclusions, interpretations, and/or the findings of the analyst as indicated by the signature below
